University College and Lincoln College at Northeastern University have a long history of providing quality education and service to adult students. A pioneer in part-time evening adult education at the turn of the century, Northeastern currently offers one of the largest and most diversified adult education programs in the country.

University College offers courses in arts and sciences, business administration, law enforcement, and health professions. Lincoln College offers programs in various engineering areas, including specialized fields of engineering technology. Both colleges offer an open admissions policy, and their programs are available in Boston and at several suburban locations. Registration is simple, and most classes meet only one evening per week.

This *Schedule Guide* includes selected information about University College and Lincoln College. For complete information about the colleges, please consult the *University College Bulletin*, 1981-82, and the *Lincoln College Bulletin*, 1981-82. Each *Bulletin* also contains detailed descriptions of all courses offered in both colleges.

A schedule of University College courses listed according to campus, day, and time begins on page 16 of this *Guide*. A separate schedule of Lincoln College courses will be available at all campus locations as of March 1, 1982. Students may pick up a Lincoln College course schedule at that time, or during the official registration period which begins on March 15, 1982.

Students may register in person at the times and locations listed below. Registration advisers will be available to discuss courses and programs, and students may register at any location for courses offered at any campus.

It is *not* necessary to pay tuition at the time of registration. Students will receive a bill in the mail after the registration period.

Students will be notified by mail if a course is canceled as a result of inadequate enrollment. Please register early to ensure your enrollment in the course(s) of your choice.

Open Houses

Individuals who are thinking about enrolling in University College for the first time are encouraged to attend an Open House. At the Open House, you will be informed of the many programs and services University College offers to meet the educational, job-related, and personal needs of adult part-time students. The Open House provides an opportunity for new students to become familiar with the University as a whole. If you plan to attend an Open House, please call 617-437-2400.

Schedule of Spring Open Houses

Boston	March 9, 1982
Burlington	March 10, 1982
Norwood	March 16, 1982

Open Admission

Our open admission policy allows you to enroll in any course without an admissions application, entrance examinations, or College Board scores.

Placement Tests

Placement tests are held for students enrolled in English 1 (30.305) during the first class session. Some students may be requested to register for Elements of Writing (30.304), a three-quarter-hour course offering additional remedial help in writing.

Students registering for mathematics courses offered by Lincoln College must take a mathematics placement test during the registra-

tion period in order to be assigned to the appropriate course. Students registering for Mathematics 1 (10.627) may also take the placement test on the first night of class. However, students registering for College Algebra (10.607) must have taken the placement test during registration to be admitted to class. Students who have taken Introductory Mathematics courses 10.681 and 10.682, or 10.671 and 10.672, must provide evidence of successful completion of these courses as a condition to register.

Academic Advising

Part-time college programs are a distinctive form of higher education, attracting students with special needs and diverse interests. Advisers can discuss courses, transfer credit, degree requirements, and other matters of individual concern. Advisers are present on a full-time basis at the Boston and Burlington campuses, weekdays from 8:30 a.m. until 8:00 p.m., by appointment.

At all other branch campuses, advisers are available by appointment during the times classes are in session, from 5:30 p.m. to 8:00 p.m. For an appointment, please call 617-437-2400. During registration, the advising staff is augmented with additional personnel to meet with incoming students on a walk-in basis.

Full-Time vs. Part-Time Study

University College classes normally meet once each week for two hours. Most courses carry three quarter hours of credit.

By taking four courses each quarter, including some summer courses, it is possible to graduate with an associate's degree in two years and a bachelor's degree in four years.

The three-quarter-hour credit plan applies only to University College programs. Under curricular revisions at Lincoln College, a bachelor's degree may be earned in seven years.

Transfer Credits

Credits earned at other accredited institutions can be transferred to degree programs offered by University College and Lincoln College. For a credit evaluation, transfer students need only submit, by mail or in person, official transcripts of acceptable work undertaken elsewhere, together with a completed petition for advanced-standing credit. A petition for advanced-standing credit for University College may be obtained by calling 617-437-2400.

As a general rule, three-semester-hour courses taken at other accredited colleges and universities are converted into four, quarter-hour credits to be applied to the

appropriate University College or Lincoln College programs.

Transferring may be so easy and profitable at University College that more than 50 percent of the degree students in University College have transferred from other institutions.

College-Level and Proficiency Examinations

Northeastern awards college credits through the College-Level Examination Program (CLEP), and the Proficiency Examination Program (PEP).

The programs, designed to recognize students for their self-education efforts, provide examinations in many fields, including business, humanities, mathematics, natural science, social science/history, as well as other specialized subject areas. For more information, please call 617-437-2400.

Credit for Noncollegiate Experience

Students who have developed competence in a subject on the basis of life experience, career experience, or independent study may petition for credit of up to sixteen hours in either the Law Enforcement or Arts and Sciences programs. An examination is required to obtain credits in the Law Enforcement program.

Once the petition is approved, the credit is posted permanently in the academic record of students accepted as degree candidates. For further information on receiving credit for noncollegiate experience, please call 617-437-2400.

Matriculation

A part-time student enrolled in University College can become a degree candidate (matriculate) by completing eighteen quarter hours of credit, including the required English 1, 2, and 3 courses (30.305, 30.306, 30.307) with a C (2.0) or better average. Transfer students are eligible to matriculate after completing only one course in University College, provided they have previously taken the equivalent of English 1, 2, and 3, and have accumulated a total of eighteen quarter hours of credit from all sources. Students who are not interested in a degree program may take courses on either an audit or credit basis.

Petition requests for a Senior Status Report are available at the Boston campus in Room 102 Churchill Hall, or in the main office at any branch campus. Seniors may also obtain a petition by contacting University College at 617-437-2400; or Lincoln College at 617-437-2500, 408 Churchill Hall.

Attention Seniors!

All University College and Lincoln College seniors planning to graduate at the June 1982 commencement should immediately request a Senior Status Report if they have not already submitted one. No requests for Senior Status Reports for the June 1982 commencement will be accepted after March 31, 1982.

Career Counselors

Career counselors are available to help students focus their career or educational objectives, or to help them make a career or job change. To talk with a counselor or to receive further information about career-counseling resources available at University College, please call the Boston campus at 617-437-2408, or the Burlington campus at 617-272-5500.

Career-Development Courses

Many persons are motivated to continue their education by the desire for career advancement or change. In order to help you develop career and educational-planning skills, University College offers a three-credit course in career development.

90.401 Self-Assessment and Career Development I is designed for persons who are undecided about a career choice and need help in defining career and educational objectives for themselves.

Career Development and Placement

Students who are enrolled in a degree program and are seeking employment in their major field of study should register with the University College Placement Office and submit a copy of their résumé to Karen McGuire, Assistant Director for University College Placement. Services available to all students include a job bank

and a reference library consisting of employer information.

Students enrolled in a degree program are eligible for additional career services such as a final critique of their résumé, referral of their résumé to employers, non-paid internships, and specialty recruiting weeks during the spring quarter. In addition, seniors may take advantage of corporate on-campus recruiting (daytime) during the fall and winter quarters.

For more information, call Karen McGuire, 133 Nightingale Hall; telephone 617-437-3210.

Job-Search Seminars

Students who are seeking employment or who are anticipating a job change in the near future should attend job-search seminars. The seminars are designed to help students define an immediate career direction, develop effective job-search strategies, prepare a résumé, and make plans for job interviews.

For more information, please call Karen McGuire at 617-437-3210.

Counseling and Testing

The Counseling and Testing Center at Northeastern provides a wide variety of services, free of charge, to all part-time students.

Services include personal counseling, educational-vocational counseling and testing, and study-skills workshops.

The Counseling and Testing Center is located in Room 302, Ell Building. Telephone: 617-437-2142.

Cooperative Education Program

University College, in conjunction with Northeastern University's Division of Cooperative Education, has developed a Cooperative Education Program for part-time students. Designed to make available to University College students the many benefits of a cooperative, work-study learning experience, the program is aimed at individuals who are seeking work experiences that are more closely related to their current programs of study.

For more information, please call 617-437-2408.

Core Career Courses for Women

University College has developed a special cluster of credit courses to assist the increasing number of women who are seeking professional, technical, or managerial careers in business and industry.

The numbers and titles of these courses are:

- 90.301 Planning a Business Career
- 90.305, 90.306 Women in Business Organizations 1, 2
- 90.310 The Elements of Management

Theatre and Cinema

29.312 Theatre Experience*

Boston, Thursdays, 8:00 p.m.

Emphasizes a combination of theory and practice through an analysis of model plays and an examination of several aspects of production, including acting, directing, set design, and lighting.

29.380 The Creative Cinema*

Burlington, Wednesdays,
8:00 p.m.; Marshfield, Tuesdays,
8:00 p.m.

Offers students an opportunity to view and critique films, directors, actors, and other creative cinema personnel.

*Cost of tickets to performances is not included in tuition.

Lincoln College

What Is Computer Technology?

In relatively few years, the use of computers has advanced beyond the scientific laboratory. As computer application continues to expand, so does computer technology. Qualified personnel trained in the use and design of computers and computer systems are needed more than ever.

The B.E.T. Degree in Computer Technology

Lincoln College of Northeastern University offers a Bachelor of Engineering Technology degree program in Computer Technology. The program's objective is to offer students training in hardware and software areas. Courses in these areas, combined with hands-on laboratory experience, assist in

preparing graduates to interface the computer with process plants or machinery.

If you are interested in pursuing a career in computers and are interested in the Lincoln College B.E.T. Computer Technology program, please call 617-437-2500 for further information.

Lincoln College Programs

The following part-time degree programs are offered by Lincoln College:

Bachelor of Engineering
Technology with specialties in:
Civil Engineering Technology
Computer Technology
Electrical Engineering
Technology
Mechanical Engineering
Technology
Mechanical-Structural
Technology

Associate in Engineering with majors in:

Civil Engineering Technology
Computer Technology
Electrical Engineering Technology
Mechanical Engineering
Technology

Associate in Science with a concentration in:

Aviation Technology

To enhance the fields of study leading to a Bachelor of Engineering Technology degree, all the degree programs have been restructured to cover a seven-year period.

The approach taken by Lincoln College is to offer students a firm

basis in engineering and science principles, and an awareness of the practical applications of advances in engineering and science.

Lincoln College courses are available at the Boston, Burlington, Framingham, Norwood, and Weymouth campuses.

Center for Continuing Education

Northeastern University's Center for Continuing Education, located in Waltham, Massachusetts, serves the educational needs of the community through workshops, conferences, special programs, and public offerings.

Programs include State-of-the-Art Engineering, Supervisory Management, Emergency Medical Technician (EMT)*, Paramedic, Food Service, Paralegal, and many other specialized areas of interest.

The Center awards nationally recognized Continuing Education Units (CEUs) to students who satisfactorily complete the programs. For further information about the Center's programs, telephone 617-890-1134.

***Registration for the Basic EMT Course**

The EMT program's basic course is designed to offer the necessary training to provide prompt and effective emergency medical care.

This course (86.403) is offered at the Boston, Burlington, Norwood, and Weymouth campuses during the spring quarter, beginning early April and continuing for twelve weeks. Classes meet two evenings per week.

Students may register for the course during the University College registration period or by mail. A special registration form is necessary, which may be obtained by request from the Center or at the aforementioned sites during the registration period. A descriptive brochure, which includes a spring schedule, may be obtained by telephoning the Center.

Tuition

Per quarter hour of credit, tuition for University College is \$58, and for Lincoln College, it is \$65.

Fees

A \$10 registration fee for first-time students is billed with tuition fees.

Late Payment

A \$50 late-payment fee will be charged for bills not paid by the due date, unless deferred payment arrangements are made with the Bursar.

Deferred Payment

Bills for tuition and fees are payable on the due date indicated on the tuition bill, unless a deferred payment plan has been arranged with the Bursar. A \$5 fee is charged for these arrangements, which should be made before the end of the first week of the quarter or within one week of the date of registration if you register late.

Laboratory Fees

Chemistry	\$30
Biology	\$25
Health Professions	\$15
Arts and Crafts	\$ 5
Food Preparation Course	\$20
Food and Beverage	
Management Course	\$15
Forensic Laboratory	\$ 5

Billing Problems

All billing discrepancies should be brought to the attention of the

Bursar, 245 Richards Hall, telephone 617-437-2270.

Scholarships and Financial Aid

Scholarship applications for University and Lincoln College students are available during the 1982 winter quarter and are processed during the 1982 spring quarter. Awards range from \$125 to \$500 for qualified students. Students may place their names on the scholarship mailing list by calling 617-437-2400. Although nonimmigrant alien students are not eligible for financial aid, they are eligible for scholarships and assistantships.

For information about Veterans Administration educational assistance benefits, consult the Veterans Services Office, 116 Hayden Hall, telephone 617-437-2283.

For information about all other forms of financial aid, inquire at the Financial Aid Office, 254 Richards Hall, telephone 617-437-3190.

University Bookstores

Northeastern University Bookstores are located on both the Boston and Burlington campuses. At the beginning of each term, the bookstores are open beyond the regular evening hours and on Saturday mornings. Schedules are posted outside the Bookstores.

In addition, books can be purchased at each of the University College suburban locations. Purchases may be made during the first two weeks of classes in the fall, and the first week of classes in the winter and spring.

The hours for purchases at these suburban locations during the fall, winter, and spring terms are from 5:30 to 8:30 p.m., on the same evenings that classes are held.

Campus Parking

Parking for Northeastern students is provided in the University parking areas and is available on a first-come, first-served basis.

A parking registration decal is required by the end of the second week of each quarter in order to park in the Boston and Burlington campuses' parking lots. A \$4 fee is charged to cover costs and is payable at the Cashier's Office, 247 Richards Hall, Boston; or at the Burlington Campus Cashier's Office.

Important Preregistration Information

The schedule of courses on the following pages is designed to acquaint students with the spring course offerings of University College. The schedule includes new courses and all continuing courses, both of which are listed by campus, day, and time to help students plan their spring quarter schedules.

A separate schedule of Lincoln College courses will be available at all campus locations as of March 1, 1982.

Section Numbers

In order to register for courses, students will need to know the section number of each course in which they wish to enroll. A *revised* University College course schedule, including section numbers, will be available at all registration sites during the official registration period. See page 3 of this publication for more information regarding registration.

Room Numbers

During the first week of classes, *room numbers* will be posted on bulletin boards at the Boston campus and in the main office of each branch campus.

Course Descriptions

For *course descriptions*, please refer to current University College

and Lincoln College *Bulletins*, which are available at all registration locations.

Classes begin April 5, 1982.

Northeastern University is an equal opportunity/affirmative action educational institution and employer. The University Affirmative Action Officer/Coordinator may be contacted in Room 175, Richards Hall; telephone 617-437-2133.
